Reasons for Allowance

1. Claims 1-55 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art to Yang, et al does not disclose or fairly suggest, among other things, identifying facial features for face recognition by: adjusting the matching outer and inner facial features of the first and the second models using the corresponding epipolar constraint for the first and the second models for a more accurate correlation of facial features between the first face image and the second face image; and updating each inner facial features of the first and second models, updating, using the fundamental matrix and the corresponding epipolar constraint, the plurality of points for each of the inner facial features of the first and second models, and updating each said outer facial features of the first and second models wherein the updating is for a more accurate correlation of facial features between the first face image and the second face image. It is for these reasons and in combination with all of the other elements of the claims that claims 1-55 are allowable over Yang, et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
